WEIGH SOLUTIONS PVT. LTD.

# » Company Profile

The **Decade of 50s** has a significant importance in the History of our Nation. Our Country had just gained independence & was hardly Five years young at that time. During that nascent stage of Independence, Our Countrymen were bubbling with string of activities to contribute towards the Economic Development of our Vibrant Nation. However, **A rare few Countrymen** through their sheer vision were thinking differently to spearhead the Economic Activities.

It was during that golden era of **"1952"**, Our Organization **"Tulsi Trading Company"** was formed under the able guidance of **Late Visionary "Mr Tulsi Ram Tikmany"**.

The Organization started its Integrated Operations based at **"Kolkata"** for identifying & catering to the Weighing needs of the Industries in **India & few of its South Asian Neighbouring Countries**. The Journey of the Organization so far has been commendable, right from manufacturing of Mechanical Weighbridges initially to transforming itself to Design, Develop & Cater to the overall Electronic Weighing needs of the Consumers.

Apart from being Pioneers in Static Weighing, We

have recently set our foot in the Exclusive Club of Dynamic Weighing too. Our Weighbridges are installed across the Country & Abroad, Performance of which speaks for its ergonomic engineering design, robust structural strength & electronic precision. Our Corporate Operations are respected for its transparency & ethical practices. Our Presence & Continuity in the Industry since past 60 Years boasts about the vibrancy of the Organization.

The Quality & Accuracy of our Product range is of envy to our Competitors. **Our Weighbridge Intelligent Terminal is armed with Anti Theft Features**, which restricts manipulation at the Weighing level.

We have a smart marketing network comprising of Sales & Service professionals operating from strategic locations of the country. Our Service professionals are equipped with necessary breakdown spares & groomed for addressing the Service issues of our esteemed Customers within a timely deadline.

Our Customer Profile portrays our image as a formidable & trustworthy source. Our presence is recognized right from **"Infrastructure, Metal & Minerals, Hydropower, Coal & Mines, Engineering**

**Industries, Tea Estates, Sugar, Rice, Jute, Cement, Carbon, Pulp & Paper, Chemicals, Agro Industries, Breweries, Cold Storage, Automobiles apart from Ordinance, Railways, Power Generation & Electricity Boards extending further into Public Weighbridge Domain. Our exports have crossed into the Borders of Nepal, Bhutan, Bangladesh, Africa, South Africa & U.A.E.**

In recognition of our Corporate Management skills, Organization was awarded with the **Credit Rating Certification** by **"NSIC - DUN & BRADSTREET Information Services (India) Pvt. Ltd.**

**Certification of ISO 9001 : 2008** was concluded through DNV.

We expect to get ourselves registered with your esteemed Organization at the earliest for meeting your future Weighing needs. An opportunity to visit your premises will enable us to explain your team **"WHY US"**.

**Government has acceded to our decision to re-designate the Name of our Organization from "Tulsi Trading Company" to "Tulsi Weigh Solutions Pvt. Ltd".**

Thus, Our Journey Continues .....

*The future of weighing*

## Case Studies

### Even before time' is the New Speed

We guarantee real speedy delivery; having the genuine capacity to deliver perfect weighbridges as and when needed by our customers, gives us the will and inspiration to serve even before time. There are good number of examples; as once we delivered over 200 weighbridges in a period of 3 months when one of our customers was in very urgent need. Once the customer is ready with the foundation, we guarantee committed speedy delivery as soon as he places the order.

#### »» Company-Taurian (South Africa)

The Customer needed to weigh the Caterpillar Dumper which was unusual in size and required a special platform to be made. The individual wheel width was approx 2M with further distance in between both the tyres. We specially designed a Twin Platform Weighbridge in which the platform size was 8.5m\*2.5m. Each of the platform were installed parallelly to take the weight of the dumper.

#### »» Kolaghat Thermal Powe Station

The customer wanted to weigh a trailer which contained ash and had a maximum length of 20M with the horse. We specially designed a unique size of 21M\*3M pitless type single platform weighbridgefor them, based on 8 loadcells. This is the longest single platform installed in this region.

#### »» Besco LTD

We successfully manufactured and installed a 170 ton wagon weighbridge for them to weigh the wagons produced by this esteemed company. This is the highest capacity weighbridge beind used in the whole region.
